What’s Happening?

The purpose of this newsletter is to inform Haywood County Taxpayers of what transpires at the bi-monthly County Commission Meetings. This newsletter will be written from the perspective of a casual observer, myself. Any opinions expressed will be mine.

Annex II.

The School Administration is currently occupying CES. To me, this is like the Taj Mahal, compared to what they have been occupying in the old Hospital Building. It’s hard for me to reconcile having to move people to cramped office space in the Annex II building.

[**Editors Note:** I had requested multiple times to have **Kris Boyd** offer a tour of that building. He has always refused.]

I drove by the Annex II building today. The place has been completely gutted. WTF?

Here are some photos:

There is a concrete pad formed at the right hand side of this building, presumably for an elevator.

?

This is analogous to the Old Walmart Building all over again. Didn't **Kris Boyd**, or any other Haywood County employee realize that there would be so much demolition involved?

It would have made more sense to demolish the entire building and start from scratch. Is this why commissioners needed to pass a \$2,000,000 Installment Finance Contract?

Legend: If any name is in **bold**, it can't be a good thing.
